EXPERIENCE

Lab Instructor

Charlotte, NC

University of North Carolina at Charlotte

August 2025 – Present

- Instructor for a course with 600+ students, teaching computing fundamentals and Python basics.
- Administer two lab sections with a combined 120 students with an average student grade of 80%.
- Lead weekly meetings to mentor, check in with, and get feedback from Instructional Assistants.
- Moderate weekly grades and office hours to support students in a one-on-one setting.

Scouting America Eagle Scout & Adult Volunteer

Charlotte, NC

Troop and Crew 167

April 2008 – Present

- Dedicated 18 years of service to Scouting, including 6 years as an Adult Volunteer, and 1 year as Lead Advisor.
- Organized a council-level weekend event hosting 100 people for a friendly skill competition between units.
- Supported committees at the troop, crew, district, and council level, including a District Camporee.
- Advised and assisted youth in planning and leading meetings, outings, and programs.

Course Lead (Senior Patrol Leader)

Charlotte, NC

National Youth Leadership Training

September 2021 – June 2022

- Directed a team of 20 staff to deliver a week-long leadership program for 60 participants.
- Modeled servant leadership and conflict resolution, fostering a collaborative course culture.
- Coordinated scheduling, logistics, and presentations across a 6-day curriculum.
- Mentored staff in leadership, communication, and presentation skills.

PROJECTS

[bachelder.me](#) | Next.js, TypeScript, Tailwind CSS, GitHub Actions

September 2025 – Present

- Architected a 5-page personal website using self-taught Next.js and Typescript, hosted with GitHub Actions.
- Delivered production-ready site in 2 months while balancing graduate student and lab instructor responsibilities.
- Integrated Isotope for dynamic filtering, system-aware theme switching, and hero animations for interactivity.
- Constructed 9 reusable React components with cohesive UI/UX design across all pages using Tailwind CSS.

[m62.bachelder.me](#) | React Router, TypeScript, Python, FastAPI, MongoDB, Git

November 2025 – December 2025

- Developed a full-stack web application showcasing recent GenAI innovations with interactive D3.js visuals.
- Configured an Ubuntu DigitalOcean droplet with NGINX serving static assets and proxying API requests to Uvicorn.
- Enforced access control with OAuth2 and JWT tokens, including token issuing and request-time verification.
- Engineered FastAPI routes that pull MongoDB data into chart-ready payloads for summary and reports.

[Restaurant Database API](#) | Python, MySQL, FastAPI, SQLAlchemy, Git

January 2025 – May 2025

- Modeled relational database tables with SQLAlchemy and enforced validation using Pydantic schemas.
- Translated 10 customer-requested requirements into 17 features and 8 structured endpoints.
- Implemented a backend API with CRUD endpoints across 8 relational database models.
- Collaborated in a Scrum-based workflow and maintained version control with GitHub.
